EDUCATION

Bachelor of Science Honours Computer Science | Expected Graduation, May 2028

York University, Toronto, Ontario

Relevant Coursework: Object-Oriented Programming in Java, Linear Algebra, Discrete Mathematics , Data structures and algorithms , Computer architecture , Web development (JavaScript)

EXPERIENCE / PROJECTS

Potluckio

Feb 2026 – Toronto, Ontario

- Built a real-time group meal planning web app where hosts create events, set food categories, and share unique links with guests to claim contributions instantly.
- Led UI/UX design and Git workflow as Lead UI/UX Developer & Git Specialist, managing version control across a team to keep development organized and conflict-free.
- Designed an intuitive interface reducing the coordination overhead of group meal planning.

Kolbeh

May 2025 – Present Toronto, Ontario

- Designed and developed a fully responsive restaurant website using HTML, CSS, and JavaScript, optimized for desktop, tablet, and mobile.
- Implemented smooth navigation, interactive UI elements, and dynamic menu pages to enhance user experience.
- Built a Node.js + Express backend with SQLite3 for persistent data storage.
- Integrated user authentication (bcrypt) and a favorites system, enabling account creation and personalized menu selections.
- Applied secure architecture practices, including password hashing and protected API endpoints.

Restaurant Finder Application

December, 2024 - Toronto, Ontario

Associated with Lassonde School of Engineering – York University

Technologies used: JavaScript, HTML, CSS , Node.js

- Developed a web-based Restaurant Finder app that enhances users' dining experience through personalized restaurant recommendations based on city, cuisine, and price range preferences.
 - Designed and implemented a mini database to efficiently organize and retrieve restaurant data, ensuring fast and relevant search results.
 - Applied recommendation algorithms to intelligently suggest dining options tailored to user inputs.
 - Collaborated with team members throughout the development lifecycle, practicing agile methodologies and version control.
-

Customer Service Associate

Metro, Toronto, ON

July 2023 – February 2025

- Collaborated with team members in a fast-paced environment, demonstrating teamwork.
 - Gathered and communicated customer feedback to management
 - Delivered excellent customer support by efficiently resolving inquiries and managing transactions
-
